## **New Commercial Division of Space Matters Launched to Help Organize Businesses**

Space Matters, Richmond's leading residential organizers, has launched a new commercial division to help businesses organize their time, space and information in order to be more productive. **Unlike other organizers, they provide a finding system, not a filing system.**

“White collar workers waste an average of up to 40% of their workday. Not because they aren't smart, but because they were never taught organizing skills to cope with the increasing workloads and demands.” ~Wall Street Journal Report

Our premier service, *The 8-Hour Miracle*<sup>™</sup>, was developed specifically to eliminate clutter. It guarantees three results: (1) They will know what to do with every new item that comes into their office, (2) They will be able to find anything we have put into the system in five seconds, and (3) They will have a GamePlan for anything not yet in the system at the end of the 8 hours.

Cathy LeHew is Space Matters Commercial Division Director. Her mission is to help her clients establish and maintain a productive and organized environment so they can accomplish their work with less stress and create time to enjoy their lives.

Cathy is a member of the National Association of Professional Organizers, a Certified Productivity Trainer and Authorized Consultant (PTAC<sup>™</sup>) from the Hemphill Productivity Institute and certified to deliver The 8-Hour Miracle<sup>™</sup>.
